📍 Richmond, BC, Canada ✉ dylan.seijin.jones@gmail.com 🌐 www.dylan-s-jones.com 📄 d-s-j

Skills

Languages

JavaScript, Ruby, Golang, SQL, HTML/CSS

Frameworks

Express, Sinatra, React/Redux, jQuery

Misc.

Git/GitHub, Docker, Node.js, MongoDB,
PostgreSQL, Redis, RESTful & GraphQL APIs,
Nginx, Ngrok

Cloud

AWS, Heroku, DigitalOcean, Firebase

Professional Experience

08/2021 – present

Co-Creator, Software Engineer, *Synapse*

Synapse is an open-source tool to build, deploy, and monitor a GraphQL Gateway, putting legacy APIs behind a single GraphQL endpoint.

- Developed a GUI to assist in configuring various API types to the Gateway
- Designed an Apollo Server plugin to log error data from GraphQL requests
- Captured and stored real-time resolver latency data into MongoDB
- Implemented a dashboard for monitoring request and error data
- Contributed in building a pipeline to deploy Synapse to a serverless AWS infrastructure

2019 – 2021

Web Developer, *Self Employed*

Projects include:

- ProjectHub - a project management application, built with React, Redux, Express, MongoDB, and more.
- ReqBox - a RequestBin-like application built with React, Express, and MongoDB which provides a URL to collect and inspect HTTP and webhook requests.
- BusBuddy - a web application that displays Metro Vancouver bus times based on a provided stop number, built with React, Axios, and Translink's API.

2015 – 2019

Warehouse Supervisor, *True Word Foods Inc Of Canada*

2015 – 2018

Graphic Designer / Illustrator, *Freelance*

2010 – 2015

Administrative Assistant / Warehouse Associate, *True Word Foods Inc Of Canada*

Education

2019 – 2021

Launch School, *Software Engineering*

An online curriculum utilizing mastery-based learning to enforce the fundamentals of software engineering.
